How to Backup your data in Dynamic Submission 7 Expert Technical Document

Overview:

This technical document explains how to backup Dynamic Submission data in the Dynamic Submissions data directory. Some or all of this information shown here not applicable for a casual user and is made available as-is. There is no technical support for the use of the information that follows.

Directory Structure:

By default Dynamic Submission is stored in **C:\Program Files\Dynamic\Dynamic Submission V7**

You may use a simple archiving file such as WinZip to zip up the entire directory.

Advanced Users may want to Zip up only what is needed in case of a computer crash.

The following files are needed:

"C:\Program Files\Dynamic\Dynamic Submission V7\Projects"
"C:\Program Files\Dynamic\Dynamic Submission V7\project.dwj"
"C:\Program Files\Dynamic\Dynamic Submission V7\Event.dat"

If you are an expert user and if you have a copy of WinZip's command line tool, the process can be automated with the following simply program. **DS7BACKUP.BAT**
(all the default installation locations are assumed and you may have to modify them according to where you installed WinZip & Dynamic Submission 7

Please note the following tool may be downloaded from:
<http://www.dynamicsoftware.com/update/ds7backup.bat>

A simple source example follows on the next page:

```
rem **** Dynamic Submission Backup Utility Example ****
rem
rem **** The Following is an example of how to Backup
rem      Dynamic Submission 7 Data
rem **** It assumes that you have installed Dynamic
rem      Submission in it's Default locations and you
rem **** have WinZip and the command line option installed on
rem      your pc.

rem ****      wzip [options] zipfile [@listfile] [files...]

"c:\program files\winzip\wzip.exe" ds7backup.zip "C:\Program
Files\Dynamic\Dynamic Submission V7\Projects" "C:\Program
Files\Dynamic\Dynamic Submission V7\project.dwj" "C:\Program
Files\Dynamic\Dynamic Submission V7\Event.dat
